

NOTICE OF A TELECONFERENCE CALL OF THE SOC WG TO LOOK AT PRINCIPLE 2

The purpose of the teleconference call is to discuss principle 2 as it reads in the latest draft distributed on the 23rd October 2007. The principle reads as follows:

2. Consultation

Biofuel projects shall arise through fully transparent, consultative and participatory processes that involve all relevant stakeholders

In the last teleconference call of the SOC WG some participants raised an issue about having a principle that dealt with transparency and consultation.

There has been a lot of discussion about whether or not it should be a principle or be a criteria attached to one or more of the existing principles.

We want to hear what you have to say on the matter.
